SUMMARY

Full Stack Web Developer with a background in Mechanical Engineering and project management. 5+ years experience in operations management. Excellent problem solver, collaborator and enjoys challenges to work within a team to tackle complex issues. Progressively looking to utilize the technical toolbox.

EDUCATION

University of California, **Irvine, CA | Full Stack Web Development | Coding Certificate**
- A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

California State University, **Los Angeles, CA | Masters of Science, Mechanical Engineering**

California State University, Los Angeles, CA | **Bachelors of Science, Mechanical Engineering**

TECHNICAL SKILLS

Languages: JavaScript, Node, React, MySQL, No-SQL, MongoDB, HTML5 & CSS, R, VBA.
Applications: REST APIs, CRUD development, Heroku Deployment, Firebase Deployment, MERN Stack

APPLICATIONS BUILT

Super Street Battle: [Github](#) | [Deployed](#)
- Single-player RPG game designed to battle streetcars after carefully building and designing the car's performance.
- **Role**: Back-End Developer | **Tools**: MongoDB, No-SQL, Mongoose NPM, Heroku, Full MERN stack

Porcelain: [Github](#) | [Deployed](#)
- This app allows you to find bathrooms close to you. It allows the user to add comments and likes to the bathroom and submit a request to the admin to add new bathrooms.
- **Role**: Git Master, setting up the overall structure, page linking, and Heroku app deployment. **| Tools**: Javascript, React, Express, Heroku, and MySQL

Pantry Project: [GIthub](#) | [Deployed](#)
- This app was designed to find recipes and if your too lazy to cook, or just don't want to, then you can search for restaurants around you.
- **Role**: Building the API to locate the restaurant given a location. Mapbox and Zomato were used together to locate the restaurant | **Tools**: Javascript, Mapbox API, Zomato API

EXPERIENCE

Warehouse Manager   2019 – Present
Express Pipe   Fontana, CA
- Managed 20+ direct reports, ensuring all orders are pulled and processed for deliveries while communicating all delivery time constraints in a timely manner, held daily huddles with the team to communicate pulling errors and success stories building team engagement.
- Successfully built and developed the warehouse team during the transition of becoming the main distribution center for the Inland Empire creating a strong structure and team cohesion.

Warehouse Manager   2018 – 2019
Multi Sales Inc.   La Palma, CA
- Effectively stabilized receiving and distribution by hiring and developing key team members.

Warehouse and Ops. Manager   2013 – 2019
Applied Medical   Rancho Santa Margarita, CA
- Managed 25+ direct and indirect reports between 3 warehouses. Ensured all orders are pulled and processed for deliveries while communicating all delivery time constraints in a timely manner.
- Utilized R and VBA to create specific reports for the inventory team to eliminate backorders. R was used to tidy up the data while VBA was used to help standardize what inventory to focus on in an easy to use format for the Inventory Supervisor.
- Effectively reduced the warehouse processing time by 50% through standardizing operations and processing areas.
- Designed and implemented a packing and shipping process for Europe manufacturing.
- Reduced the JIT warehouse by 20% to allow for storing higher demand inventory.
- Utilized pick reports from SAP to define a picking standard; utilized R to standardize the data sets while VBA and excel pivot tables were used for presentational purposes.
